-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: Please update first line of specification to claim foreign priority. Appropriate correction is required.

Claim Objections

2. Claims 4 – 6 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 4 – 6 do not further limit method steps from claim 3.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 depends from claim 1, which is directed to a set for repair. Therefore, it is unclear what the scope of the claim is directed to: a method or a set. In addition, it does not meet the infringement test (see MPEP 608.01(n) III – Infringement Test). Further, the claim is indefinite because there are no steps of 'performing such repair addition or restoration' in the body of the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 – 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Ibsen (US 4,256,603).

Regarding claims 1 and 2, Ibsen adequately discloses a set 9 for repair, additions and restorations of dental prostheses that includes:

- a light curing repair material (column 2, line 63 - column 3 line 5, particularly ingredient 5),
- a diamond grinder (column 4, lines 24 - 30);
- a bonding agent solution (column 3, lines 16 - 35);
- a mixing plate 23.

Furthermore, with respect to claims 3 – 6, Ibsen discloses the use of the aforementioned kit for the purpose of repairing, restoring and adding to dental prosthetics (column 5, line 17 - column 6, line 45; also, figures 2 - 6).

(Note: it has not been explicitly disclosed by applicant what the difference is between 'additions' and restoration/repairing. Examiner is interpreting the term to encompass any addition of material that is performed during the course of repair of dental prostheses, as is best understood in light of the specification).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO – 892.
